

Join HED, Inc. at the International Vehicle Technology (IVT) Expo!

Visit us in booth **#805** as we exhibit at the first ever US held IVT Expo on Aug 31 – Sept 1, 2022 at the DES Convention Center in Rosemont, IL.

Along with our recently launched 5” display, we will demo capabilities of our NEW 7” display and [CANect® Telematics Portfolio with recent updates](#). Experience our entire line of Intelligent Vehicle Solutions designed to withstand rugged environments including our [Controllers](#) and various [HMI products](#) to include a variety of displays, keypads and jog dial.

Featured Products:

- Telematics Demo & Prototyping Kit
- CANect® Telematics with Recent Upgrades
 - Improved memory 512/8GB
 - Global 4G coverage
 - Improved Wifi support
- 5” and 7” Color Displays
 - Flat, all-glass screen with minimal bezel
 - Button and no button options
 - Touchscreen option
 - Multi-video inputs
 - Bluetooth, 5GHz Wifi and Ethernet

Setup an [Onsite DEMO](#) in advance and learn how our Controls and Telematics technologies can improve safety, performance, functionality and differentiate your vehicles giving you a competitive advantage.
